RICHESON SUFFERED FROM NERVES HERE

Rev. Clarence V. T. Richeson was supply pastor of the Calvary Baptist church in El Paso during the months of May, June and a part of July, 1907. He was then a student at Newton Center, Mass., and returned in the fall to resume his studies there. He was very popular while in El Paso and is reported to have been engaged to a local girl. While here, Richeson suffered from spells of hysteria, according to Dr. Thompson Grace, who attended him for three days while he was suffering from the nervous trouble. "I waited on him at his home on Wyoming street," Dr. Grace said Saturday. "He was suffering from a nervous condition akin to hysteria, most of which was just a lot of put on, there being very little the matter with him. While he was sick, he would get out the photo of a woman and talk about how beautiful she was and how much he loved her. He did not pay me for my calls and has not yet paid it."

Richeson was made lately by Richeson's father, V. T. Richeson, of Amherst, Va., to pay the bills which his wayward son had contracted while acting as supply minister in El Paso before the latter's trial. P. E. Curran, stationer and book dealer, received a check for \$18 from Richeson's father in payment for a number of bibles which the preacher bought while here, but never paid for. Other bills were also paid recently. The letter received by Dr. Curran was dated Dec. 21, 1911, and acknowledged the receipt for the paid amount. The letter also said that a check had been sent to "Dr. H. Grace," although Dr. Thompson Grace, who acted as the young minister's physician while he was here, says that he received no money for his services. Richeson is said to have had many callers while he was here and to have been very popular among young people, especially young women, although he frequently said that El Paso lacked the culture which was necessary for his existence. Richeson is described as a tall, handsome, dark complexioned Virginian and to have made friends readily.

Had Splendid Letters.
He came to El Paso with splendid letters from eastern churches and his professors, and his work was satisfactory here, the members of Calvary church say.

However, among some laymen, it is hinted that his resignation was all that prevented his being discharged from the El Paso church. He is also said to have insulted some of the members of the church while in one of his hysterical states by referring to the El Paso people as "divine liars."

"His moral conduct and character while here was excellent," said C. V. Nafe, a leading member of the Calvary church. "There was never a questionable thing against him while he was here. We did not like him personally, but that was nothing against him. I never heard of him being engaged to a girl in El Paso, although he told us he was engaged to a girl back there in Boston. He had several people here and fell while suffering from the nervous condition. He was not called to be pastor of the church."

STATE BANKS IN GOOD CONDITION The Report Shows 21 New Banks and Big Increase in Deposits.

Austin, Tex., Jan. 6.—According to a condensed statement of the financial condition of the 658 state banks and bank trust companies given out today by the state department of insurance and banking, these institutions are in a flourishing condition. The statement is for the close of business, December 31 and is from September 1. It shows 21 new banks were authorized to do business in that period and six liquidated.

The statement shows an increase of \$11,882,920 in individual deposits, a decrease of \$5,473,692 in undivided profits, loans and discounts decreased \$2,221,253. Total individual deposits are over \$52,000,000. Total reserve of demand deposits is 42.5 percent and cash reserves 14.5 percent.

Prudential a Candidate.
Judge A. G. Prudential, appointed a little over a year ago by former governor Campbell as associate justice of the court of criminal appeals today announced as candidate for election to the office of chief justice. He has no platform because he says that this position is nonpolitical.

May Transfer Home Office as Capital.
It was told today by the state general's department that a Texas life insurance company may transfer its home office from Dallas to Austin. This ruling means encouragement to Texas companies to build their headquarters here. Ruling was to Anacostia Life of Wash.

Rev C. V. T. Richeson and Murdered Girl

CLIMAX IS REACHED IN PACKERS' TRIAL

Defence Asks Testimony of
Pratt Stricken From
Trial Record

Chicago, Ill., Jan. 6.—A climax was reached today in the trial of the 19 Chicago packers charged with criminal violation of the Sherman law, when counsel for the defendant moved to have stricken from the records the evidence of Jerome H. Pratt, identifying the handwriting of J. Ogden Armour, Arthur Meeker and Thomas J. Connor, on certain letters previously introduced in evidence by the government to show the existence of a combination among the defendants in the period between 1896 and 1904.

Attorney M. W. Borders representing the Morris interests, made the point that the testimony of Pratt, who was stricken from the trial, was incompetent for the reason that it was based on an opinion obtained in the ordinary course of business and not on personal knowledge.

Before the argument of counsel on this point had been concluded, attorney George T. Buckingham interposed another motion, seeking to have the jury instructed to disregard the evidence contained in the Armour, Meeker and Connor letters as far as the cases against the Morris interests were concerned.

After listening to the argument of counsel for several hours, Judge Charles F. Potter adjourned court until Monday morning and reserved his decision on both motions until that time.

POWELL CONTINUES FLIGHT
Bliss, Miss. Jan. 6.—Aviator Robert G. Powell will continue his coast to coast flight, which he said at New Orleans he would abandon. He expects to leave here today for Mobile. He flew here from Pass Christian yesterday.

TWO KILLED WHEN BOILER EXPLODES

Three Others Injured and
Roundhouse Wrecked
in Los Angeles.

Los Angeles, Cal. Jan. 6.—The boiler of a big coal engine standing in the Southern Pacific roundhouse here exploded at 10 o'clock last night. Two men were killed and three injured. The explosion caused 50 feet of the roundhouse destroyed and a water tank tipped from its supports.

The explosion was caused by low water. Fragments of iron from the engine and bricks from the roundhouse were thrown 200 feet.

One man was picked up about 150 feet from the wrecked engine.

MAY BE DELAY IN SIGNING UP FIGHT

Chicago, Ill., Jan. 6.—It was announced today by Thomas Andrews, representative of Hugh McIntosh, that the Johnson-McVay agreement might not be formally signed for several weeks.

Andrews said that main thing, Johnson was not to be a signatory to the agreement until the place of the fight was decided. He said that the fight would be staged in Paris.

It appears that there will be considerable objection in congress to the abolition of the civil government on the grounds that it is unconstitutional to maintain a military form of government there. They insist that the people of the canal zone have a right to enjoy the blessings of such a government. Some go so far as to assert that the United States will not have the right even to condemn the lands now being held by people known to be "squatters." They assert that when a man has had undisturbed possession of land for 20 years, he acquires property rights to it. It is hardly probable that this view will obtain. The maintenance of a civil government would entail a division of authority on the canal zone, and those who oppose it feel that conditions

Chihuahua, Mex., Jan. 6.—There is no change in the Santa Eulalia strike situation. The men are still out. When the strike occurred, the 275 men working in the mines of the San Toy Mining company walked out without submitting a demand of any kind to the management.

From the San Toy property the strikers walked in columns to the American Smelting and Refining company's property and covered the 1000 laborers there doing the following thing:

From the American Smelting mines they next proceeded to the Chihuahua and Potosi mines, where large numbers are employed, and the workers on these properties quit, many of them at least a 25 percent increase in daily wages. The strikers held a meeting in Santa Eulalia where they were addressed by a number of labor agitators, whose main topic of speech to the workmen was to remain out for at least a month. The strikers have been working conditions. Up to date, the leaders of the men have not presented an ultimatum to the mine owners or managers.

Troops Are Sent.
When news of the strike was telegraphed acting governor Gonzales, in this city, he quickly dispatched 80 riflemen to the political officials in the town to close all saloons until the strike had been settled. This has been done. There has been no violence has attended the strike, the men simply lounging around the town waiting for the strikers to return more pay and easier working hours.

The employers have known for some time of this pending trouble and most of them were well prepared for it. They say that they will not grant any demands the strikers may make, as wages are said to be higher in the Santa Eulalia district than in any other district in the republic.

Some conservative opinion among mining men is that the strikers will lose, as the mines contain no water, so therefore no pumps have to be holed. This is the biggest factor in the favor of the mine owners.

It is said that a large number of the huge Inca and Sopras are paralyzed to work, but are held in check by the agitators.

Big Strike in Hidalgo.
Three thousand laborers in the city of Tlaxcala, state of Hidalgo, went out on strike yesterday because their contract for an eight hour workday and an increase in wages to 37.5 cents per hour had not been complied with. The strikers are at Santiago, El Carmen, Santa Isabel and La Soledad, are paralyzed. Thus far there have been no reports of violence.

Strikes on Haciendas.
All the peons in the state of Tlaxcala are out on strike for 37.5 cents per day. The strikers say they will have before they return to work. The haciendados say the demands of the men are impossible and that they prefer to keep their land idle rather than to submit to any such demands.

Drop of 10 to 15 degrees in that section since yesterday morning. Temperature in the city was at 6-30 in the morning. The rain in the eastern Texas and Arkansas, at Fort Worth it was 42 and at Little Rock 35.

Des Moines, Iowa, Jan. 6.—Temperature in Iowa today ranged from 8 to 28 degrees below zero.

Chicago, Ill., Jan. 6.—Another decided drop in temperatures marked the sixth day of the cold wave sweeping over the middle west today. From many cities came reports of broken records. Superior, Wis., having the unusual mark of 25 degrees below zero at 10 o'clock. Low points touched in the United States. Duluth, however, was pressing Superior hard, having had a point behind with a temperature of 27.

Snow in Central West.
A general snowfall throughout Illinois, Indiana and Michigan, Missouri added to the misery. The official forecast at the government bureau here was that snow would continue to fall tonight and tomorrow and the temperature would drop several degrees.

The general temperature range in the Canadian northwest today was from 10 to 25 degrees below zero. The range in the northwestern part of the United States is from 18 to 32.

Records Broken.
Locally, the records for two years were broken today. Just two years ago today the mercury dropped to 25 below zero. The low mark touching here at five o'clock this morning. A brisk wind blew from the northwest. Telegraph companies have experienced much wire trouble.

Suffering was intense. Four deaths were attributed directly to the weather.

Many Unemployed Suffer.
According to the estimate of Charles H. Wacker, head of the United Charities, there are in Kansas 150,000 unemployed men.

Of this number 500 spent last night in the municipal lodging house.

Suffering in St. Louis.
St. Louis, Mo., Jan. 6.—Temperatures in northeastern Missouri ranged as low as 10 degrees below zero today. In southern Illinois at Cairo, the thermometer stood 12 degrees below. The heavy snow which fell over Missouri extended into Arkansas.

In St. Louis it was two degrees below and street car service was demolished by the snow, which drifted heavily. Women and children were crowded for at police stations and 900 homeless men sought refuge at the police shelter.

Lowest in Seven Years.
Kansas City, Mo., Jan. 6.—Adding to the general suffering from gas famine, blocked transportation and shortage of food for livestock, the mercury in the southwest today fell to the lowest point recorded in seventy years. Readings ranged from 10 degrees below zero at Amarillo, Tex., to 14 below at Dodge City, Kan., and 12 below in Kansas City, breaking all records since February, 1895, when 20 degrees below was registered here and in many parts of Kansas. A fall of from two to six inches of snow accompanied the drop in temperature.

All trains from the west were delayed and telegraph wires were down in many places. The cold wave southwest was central over western Kansas, Oklahoma and the Texas Panhandle where a blizzard north wind swept across the country.

Two Below at Oklahoma City.
The temperature at Oklahoma City was two below, at Wichita 5 below, at

San Antonio 10 below, at Dallas 12 below, at Fort Worth 15 below, at Austin 18 below, at Houston 20 below, at New Orleans 22 below, at Mobile 24 below, at Savannah 26 below, at Charleston 28 below, at
